PHOTOGRAPHY COURSE FOR TEENAGERS

We are surrounded by images, but often we do not know more to distinguish genre and quality. Today many are photographing in the same way but few can really recount and express themselves through images. The course aims to transmit to teenagers the basic techniques and theory of a powerful medium of expression such as photography, in order to express themselves while having fun and are able to orient themselves in the flow of images that affects us on a daily basis. Through short practical exercises, in addition, the course will seek to stimulate the creativity of the participants allowing everyone to build a mini-picture story.
The course is intentionaly carried out in a period that will allow a break from the lessons for a fair amount of time, in this case Christmas Holidays, and give the participants time for practice. Later when course is resumed it will be dedicated to a constructive analisation of the work done.
A course to become passionate, to create and ... to really photograph!

COURSE STARTING DATE: 28 October 2014

COURSE END DATE: 20 January 2015
