Short description

The Model EU Brussels is an intensive course conducted by the Eastwest European Institute in partnership with Associazione Diplomatici. University students and recent graduates with the most varied and multicultural backgrounds are invited to rethink the concept of Europe by proposing and discussing their ideas and solutions to current issues. By taking on the role of Council members, and Parliamentarians, participants will build a network with other young professionals with a strong awareness of European values.

The main goal of the project is to make participants learn more about the functioning of the main European institutions thanks to direct experience of the ordinary EU legislative procedure with the learning by doing method, through a three-day-long simulation in Brussels.

The present brochure represents the **tentative program of the course. The program might undergo some changes.*
